1. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach the invention as claimed in independent claims 1, 18, 29, 35, 37, and 16, requiring in the combination as a whole the specified data types and algorithmic operational interrelationships there between for correcting skin effect in an induction logging system. These operations include measuring two or three or more apparent conductivities using two or three or more frequencies, determining weighting coefficients, determining weights, low-pass filtering conductivity difference from the at least two apparent conductivities, determining the corrected conductivities from these prior data, determining the compensated conductivities from the corrected conductivities and a look-up table, determining selection coefficients, and then the formation corrected conductivity therefrom.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
